JUNE 18 TJB GELBVIEWH ONLINE HEIFER SALE

NOVEMBER 4 TJB GELBVIEWH ANNUAL BULL SALE

# Welcome

## CATTLEMEN & CATTLEWOMEN

Welcome to our 3rd Annual TJB/3T Kentucky Bull/Female Sale. This project has been in the works for several years. It all began with the tremendous offer by the Taylor Family to invite me to utilize their commercial herd as recipis for TJB's most elite donor battery. What a dream come true for me and it allowed me to carry forward my vision of producing elite Gelbvieh & Balancer genetics with our genetics in volume.

### TJB Gelbvieh

Dr. Todd, Alisa, & Katelyn Bickett  
Bo & Kelsie Wilson  
Chickamauga, GA  
Todd J. Bickett, DVM, (423) 667-3799

### 3T Farms

Jason, Phillip, & Johnny  
Taylor & Families

Jason Taylor, (270) 352-7093

### Grayson Springs Cattle Company

Weston Boone (270) 308-5797  
Leitchfield, KY  
Weston Boone, (270) 308-5797

Jason, Phillip, Johnny, and I are fully committed to offer you some of the best genetics in the breed. We continually pressure the product to eliminate the guesswork and provide you this buying opportunity. We only propagate our very best females. Even though these are ET progeny from our best cattle, we cull the problems before we present them to you. These cattle are produced in a very structured breeding program that maintains a 60 day calving season. We do not make excuses for lack of fertility or quality of progeny. Because of that selection, we bring you fault free cattle with fertility being priority one!

3T started selling commercial bred heifers last year and they were greatly received. They have assembled another outstanding group of twenty bred heifers for this sale. They were AI bred then exposed to calving ease Balancer bulls. New to this sale this year is the addition of ten cow/calf pairs coming to you from Grayson Springs Cattle Company, Weston Boone. Weston found us a few years ago and became a believer in our program. He brought a few bulls this year as well as these pairs. We welcome him to this group and look forward to great things from him as we expand the footprint of this particular sale.

New this year is TJB offering a set of registered females. These come from the heart of our breeding program. Those that have been through our cattle know we don't own or accept failure by our cows. Consequently, if we offer you a female, she has passed the rigors of our selection process. We will have past donors, future donors, cow/calf pairs, bred heifers, and show heifer prospects offered. We will continue to provide this format going forward and become your one stop shopping place for your bulls, commercial females, as well as the registered females for the prospective buyers.

Many thanks to everyone that has made this vision a reality. Most importantly, thanks to you our potential customers for your consideration of these cattle. The future in the cattle industry looks amazing as we are finally receiving prices to allow some much needed relief against high input costs. Cattle price projections are the best we have ever seen. This is your chance to iadd genetic value at the beginning of the rise. Please contact Jason or myself if we can assist you in any way. Thanks again and God Bless!

Todd J Bickett DVM

# Details

**SATURDAY, APRIL 8, 2023 • 1PM ET**

## **SALE SCHEDULE**

**FRIDAY APRIL 7, 2023**

3PM Cattle available for viewing

**SATURDAY APRIL 8, 2023**

9AM ET Cattle available for viewing

12PM ET Lunch available

**1PM ET Sale Begins**

## **SALE LOCATION**

Mid-Kentucky Livestock Market  
13579 S Dixie Hwy | Upton, KY 42784

## **AUCTIONEER & RINGMEN**

**William McIntosh, Auctioneer**  
**David Holder Ringman (270) 670-2499**  
**Evan Tate Ringman (270) 668-3167**

## **SALE DAY CONTACTS**

**Todd J. Bickett, DVM, (423) 667-3799**  
**Jason Taylor, (270) 352-7093**  
**Weston Boone, (270) 308-5797**

## **BID ON THE PHONE**

To bid over the phone, touch base with one of the Sale Day Contacts listed at least three hours prior to the sale, ideally days before. We will set you up on the phone for you to place your bids.

## **VIDEOS**

View videos at [www.tjbgelbvieh.com](http://www.tjbgelbvieh.com)

## **ACKNOWLEDGEMENTS**

**Tommy & Kim Coley, Photography**  
**Laura Sutherly, Agtivation, Website**

**Alford Livestock Service, Sale book**  
**Kelsie Wilson, Social Media & Marketing**

## **GE-EPDs**

Most bulls sell with genomic enhanced EPDs. GE-EPDs combines the accuracy of a DNA test and the information of individual, pedigree, and progeny performance into one, easy-to-use number.

## **SUPPLEMENTAL INFORMATION**

Catalog updates will be available on the supplement sheet. Supplement sheets & announcements from the block take precedence over the catalog.

## **HERD HEALTH**

All bulls will be accompanied by a valid health certificate for immediate shipment anywhere within the continental U.S. Bulls over one year of age will be accompanied with a satisfactory BSE. Bulls under one year of age without a satisfactory BSE will sell as guaranteed breeders.

## **LIABILITY**

All persons attending sale do so at their own risk. TJB, 3T nor Grayson Springs do not accept responsibility

## **TRUCKING**

If you are not planning to pick up your purchases, please visit with Jason regarding your plans. Bulls will need to leave the sale barn Saturday night.

## **TERMS & CONDITIONS**

All registered cattle will sell under the standard terms & conditions recommended by the American Gelbvieh Association (AGA). A copy of these can be obtained from the AGA. TJB Gelbvieh retains 1/3 semen interest on all bulls selling, unless noted differently.

To *View Videos* of the sale offering visit [www.tjbgelbvieh.com](http://www.tjbgelbvieh.com)

# The Bulls

## Lots 1-5

We are **SELLING 5 FULL BROTHERS** by Copperfield and 4102C.

You can look at each individuals EPDs and sort them from the data listed.

I can assure you this is one of the most proven matings we have made.

My favorite young donor we are flushing today is 965G, a full sib ro these bulls.

The heifer mates to this flush are some of the best in their respective groups.

## Lots 6-8

We flushed 4102C to Cowtown to capitalize on the longevity we know exists in his pedigree.  
 He has proven himself as a great bull in the Green Hills program.  
 4102C is one of the prettiest females you will ever find with the amount of muscle she possesses.  
 She has a son working in the Locust Hill Cattle herd in NC.

# Bulls **BACKED BY** *Females* **DOMINANT**

TJB Gelbvieh Bulls are all backed by dominant females selected for generations of maternal excellence. Many bulls offered in this sale are descendants of 3-6 generations of donor females in our program. Thus, the continued emphasis in our marketing as “Maternal Magic.” All bulls that were eligible have been tested for coat color unless they were homozygous black by birth. All bulls will be listed as HB (homo black), Black-RC (have a red gene), or Red. Bulls listed as HP (homozygous polled) have either been tested or, most likely, assigned HP status by birth right. Although we are comfortable with this approach, it is not 100% guaranteed. All bulls have been DNA tested and have GE-EPD’s.

**Definition of terminology for polled status and color status:**

- **Black(Homo D)** - DNA tested homozygous black
- **HB** - Should be Homo Black by pedigree; not DNA tested
- **Black(Not Homo-D)** - DNA tested and is a red gene carrier
- **Black(RC)** - Not DNA tested with a known red parent
- **HP** - Most of our bulls descend from homozygous polled parentage.

These bulls were not tested homo polled, but we are confident they should be.

- **DP** - Double polled parentage. Possible these are homo polled but not tested

## Lots 15-21

This set of flushmates are really powerful.  
They can offer some true outcross potential to most any breeder.

# The Females

Starting the female portion of this sale, we chose 558C (Lot 44) to headline the offering. This Vickram daughter has been a great producer for us. Last year we sold a Rebel Yell son in our bull sale for \$6500. She has a calving interval of 371 days while being flushed one time and bred AI for her first 5 calves. We wanted to offer some donor females in this first female offering and picked her! She sells bred to TJB 1100J for an estimated calving date of 10-20-23.

Lot 44A is a black heifer calf sired by B455. The udder quality on the B455 daughters we saw at the Patton family operation were impeccable.

We are offering you three daughters out of long time donor, 130X. 805F is an outstanding Probity female. She is a low BW and high milk female. Probity not only sired our NWSS Grand Chamion bull, Rebel Yell, he left us with a great set of females. This cow can certainly earn her way into your donor pen. She is currently raising a stout Empire bull calf that we will offer in our bull sale. **She sells bred to 1100J with due date of 11-4-23.** 1100J is a Butlers Impact 549U son out of one of our best donors, 495B. We kept him to incorporate some proven genetics into our herd.

**Blackbird 9034 130X ET**  
Dam of Lots 44-46

861F is another beautiful daughter of 130X. 130X is a Masterpiece female from a great Angus donor we incorporated to make Balancers, 9034. I think you will appreciate the style and structure in these cattle we are offering in this sale. **861F sells bred to BTBR Saguario and is due 9-16-23.**

926G is an ET daughter of 823T. She is a nice cow that is raising a big, stout Rebel Yell bull calf that will also sell this fall. We decided to wean the bull calves off these sale animals for our bull sale. We do not breed cows if we don't believe they are good enough to raise bulls for our commercial customers. **She is bred again to Rebel Yell to calve on 9-16-23.**

If you are one that is looking for something with EPD's that can propel your operation, 951G might be that cow. She is in the top 5% WW and 3% YW and top 30% Marbling. We flushed this cow last year to capitalize on these EPD's. We never propagate females for EPD's only but we believe this cow was complete enough in her type to justify flushing. She produced 20 embryos on that flush. **She sells bred to 417 Justice for a 9-4-2023 due date.**

# The Anissa Story

Entering into the Anissa cow family offered this year is 6138E. For those of you that follow our program, you will certainly recognize the impact that 337M (matriarch of Anissa family) has had in this herd.

At one point last fall, we had 86 descendants of this female in our herd.

The most dominant daughter of 337M was inevitably 921U.

Since we have so many daughters in this herd, how else could we begin this family portion.

6138E is an Outright daughter of 921U and a full sister to 6137E. 6138E is HB/HP and possesses a very balanced EPD profile. She also is raising a big, stout Probrity son that will sell well this fall. There will not be many chances to buy 921U daughters so give this one a look. If you aren't familiar with 921U, she produced Rebel Yell that won the bull futurity and champion bull in 2020 at the NWSS. She sells bred to 1100J which will be a linebred 921U progeny. She is due 10-20-23.

156J is a Frontrunner daughter tracing to a 921U/Sandhills female, 4104C. The 921U/Sandhills combination has been phenomenal and will continue for years to influence this herd. She was shown at the Junior Nationals this year but more importantly, she is bred to make a cow. It appears through our Cow Power Project through the AGA, we had some oversights on testing and this one didn't get tested for HB status. We have tested every cow here for providing GE EPD's and tried to accurately identify coat color. 156J sells bred to TJB Road Rage J191 and is due approximately 10-17-23.

**Lots 52-53**

The next two daughters of 579C will be Frontrunner females. They will be flush-mates to the set of bulls that highlighted last year's sale in KY. Gladiator (full sib) sold for \$15,000 to Grayson Springs Cattle Company and Wesley Lasher. We utilized him this year as an AI sire. Another sib sold for \$6,000 to Adam Gatson in MO. FYI, these spring born heifers are from our ET calves born at the Taylor's. We choose not to breed them to calve at two years old due to the fact we have no spring born calves here.

This calf combines two of the great success stories at TJB. Of course we have emphasized the importance of 337M but the sire of this heifer, Dominic is still the highest priced bull we have sold at auction. We continue to use Dominic and really love the type. They are all soft made, easy fleshing, and eye appealing.

You will love this beautiful Copperfield daughter out of 495B. We had the misfortune of losing her first calf due to respiratory issues. This cow will stand out in any pasture she stands in. If you are looking for a herd changing female, this one can do it.

She also sells bred to Rebel Yell for a November 6th baby.

This calf is sired by GHGF War Eagle H275. Like her mother, she has lots of growth in her EPD's. She is also easy to look at! This could be another Junior project.
