TJB GELBIEH ANNUAL BULL SALE XIII

NOVEMBER 2, 2024

Welcome

CATTLEMEN & CATTLEWOMEN

Once again we want to welcome you to the TJB Maternal Magic XIII Bull Sale. We are extremely grateful that you have taken time to evaluate our program and consider us as your genetics provider. You are buying into a breeding philosophy and a program backed by 36 years of selection pressure. You are not just buying a bull, you are purchasing the genetics that have not tolerated inconsistencies and failures of any kind. Your purchase will be guaranteed in every way possible. It is our goal to make you a satisfied customer as well as a repeat customer.

I have become an avid podcast listener as I spend many hours on the road. I must say it continually fuels my passion and dedication to cattle breeding. It is a constant process to improve not only the genetics we offer, but also the services we provide. I hope you will see some progress through maybe a slightly different sire selection process. Expect to see more TJB pedigrees top and bottom as we go forward. Thank you "Angus Underground" for challenging the status quo mentality!!

I would invite you to visit with Cody or me if we can assist with your purchases. Please let us visit with you about your needs so we can try to match you with your best options. It is in your best interest to let us assist you in bull selection. We want you to buy a bull that will accomplish the goals for your operation.

We had the great fortune this year of adding our second granddaughter as Clara Flynn Wilson joined her big sister, Bella, into the family. We are really starting to see why people have always bragged about the joys of being a grandparent! We are excited for the future in so many ways.

We would love to see you at the sale but if you are unable to attend, please contact us if we can help with your purchase. Once again, we truly appreciate your support.

Sincerely,

Todd J. Bickett DVM

TRAVEL

North Georgia is beautiful - especially in the fall. There are many Air BnB & VRBO options available nearby!

The closest hotels to our place are Key West and Kings Inn, Lafayette, GA

. Other nearby hotels are in Ringgold, GA; Fort Oglethorpe, GA & Chattanooga, TN.

GE-EPDs

All bulls sell with genomic enhanced EPDs. GE-EPDs combines the accuracy of a DNA test and the information of individual, pedigree, and progeny performance into one, easy-to-use number.

SUPPLEMENTAL INFORMATION

Catalog updates will be available on the supplement sheet. Supplement sheets & announcements from the block take precedence over the catalog.

HERD HEALTH

All bulls will be accompanied by a valid health certificate for immediate shipment anywhere within the continental U.S. Bulls over one year of age will be accompanied with a satisfactory BSE. Bulls under one year of age without a satisfactory BSE will sell as guaranteed breeders.

LIABILITY

All persons attending sale do so at their own risk. TJB Gelbvieh does not accept responsibility

TRUCKING

Visit with Todd, Alisa, or Cody if you need to make trucking arrangements.

TERMS & CONDITIONS

All bulls will sell under the standard terms & conditions recommended by the American Gelbvieh Association (AGA). A copy of these can be obtained from the AGA. TJB Gelbvieh retains 1/3 semen interest on all bulls selling, unless noted differently.

BID ONLINE

W2 Auction Solutions, Becky Drlik, (317) 809-1282

OUR STORY

TJB Gelbvieh is a family-owned and operated farm with a focus on superior genetics and an emphasis on customer satisfaction. The operation began in 1988 in Chickamauga, GA. Dr. Bickett had the opportunity in his large animal veterinary practice to experience Gelbvieh cattle. The initial attraction to this great breed was their performance and disposition, as well as their superior milking ability. Dr. Bickett then began his search for elite Gelbvieh genetics to utilize in his ET program. Our continued search for dominant donor females led us to Beartooth Ranch in 1992. The real breakthrough in the direction of the TJB program came through the purchase of FLK Hochger 108N. She proved to be the first real impact female in the program. The future purchases of Vickie Vail, Vickie V, Lady Granite 432S, Lady Granite 2001E, and Lady Granite 2079L formed the base of females still working today. The program today is still based on the same philosophy to identify and utilize proven cow families.

We strive diligently to produce elite bulls and females that will increase profitability for the commercial cattle industry and seedstock producers. Stacking dominant females in the pedigrees for multiple generations provides us with the consistency we think necessary to be genetic providers not genetic multipliers. TJB Gelbvieh has focused on cow families in a structured breeding program for more than thirty years. Our herd emphasis has been fertility and longevity generated from a moderate framed, deep-bodied female that stems from a superior individual.

TJB Gelbvieh is proud to be involved in the beef industry and the Gelbvieh breed in particular. Gelbvieh cattle will play a role in the future of the beef industry and TJB genetics will be a factor in that development.

Hospitality

FRIDAY, NOVEMBER 1

- 3:00** Cattle available for viewing
- 6:00** Roast & Famous Hot Potato Dinner

SATURDAY, NOVEMBER 2

- 8:00** Cattle available for viewing with donuts & coffee!
- 12:00** Lunch
- 1:00** Sale begins!
- 6:00** Dinner & Post Sale Party

** All times listed in Eastern time.*

Online Bidding

Online Bidding Complete the quick, three-step instructions to register for online bidding. Lots will be listed in the sale site, but I still encourage you to have your catalog handy sale day!

Registration & bidding questions: *Becky Drlik, (317) 809-1282*

1. Registering Online.

Do you have fast, reliable Internet connection? This is for you.

- Go to: tjbgelbvieh.com
- Click "Bid Online"
- Click on the blue silhouette in the upper right corner.
- Choose "Register"
- Fill out contact information: email and password
- Validate your phone number by visiting "My Account"
- Validate or Edit
- You will get a 4 digit pin texted to your phone number. If no texting, select call
- Login: Your email address and password you selected will be your log in information to begin bidding.

2. Bidding Online, Once Registered.

- Prior to first bid you will need to agree to the "Terms and Conditions" of the auction.
- Once agreed, you may place your first bid by clicking the "Bid" button.
- The opening and next bid will say "Asking."
- Confirm that the item and bid amount is correct, then click "Place Bid."

3. Setting Up Outbid Notifications.

We recommending setting these up! It's a fast and easy step.

- You can choose to receive outbid notifications via text message to guarantee you know if you have been outbid during the sale.
- Under "My Account" in the drop down, select "Notifications."
- There, you will make your choice to receive notifications.

Alternate Option: Phone Bidding

Do you tend to have Internet connectivity issues? This is for you.

- To bid over the phone on sale day, touch base with one of the contacts listed below at least three hours prior to the sale, ideally days before.

Todd J. Bickett DVM, (423) 667-3799

Cody Maddox, (423) 802-8347

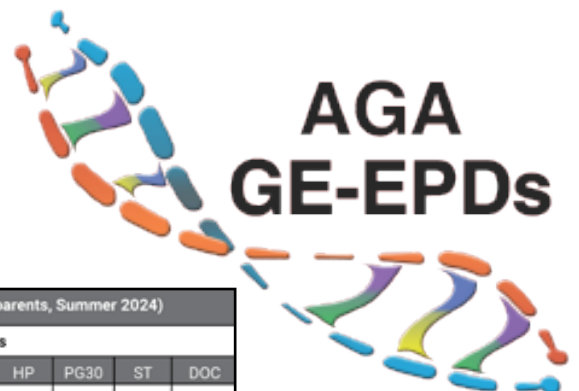

Rusty Hays, (423) 802-5972

Bulls backed by dominant females

TJB Gelbvieh Bulls are all backed by dominant females selected for generations of maternal excellence. Many bulls offered in this sale are descendants of 3-6 generations of donor females in our program. Thus, the continued emphasis in our marketing as "Maternal Magic." All bulls that were eligible have been tested for coat color unless they were homozygous black by birth. All bulls will be listed as HB (homo black), Black-RC (have a red gene), or Red. Bulls listed as HP (homozygous polled) have either been tested or, most likely, assigned HP status by birth right. Although we are comfortable with this approach, it is not 100% guaranteed. All bulls have been DNA tested and have GE-EPDs.

Definitions of terminology for polled and color status:

- **Black (Homo D)** - DNA tested for homozygous black
- **Black (Not Homo D)** - DNA tested and is a red gene carrier
- **Black (RC)** - Not DNA tested with a known red parent
- **Black (Homo P)** - Homozygous black by parentage and parent verified
- **Polled (Homo P)** - Homozygous polled by parentage and parent verified
- **HP** - Most of our bulls ascend from homozygous polled parentage
These bulls were not tested homo polled, but we are confident they should be.
- **DP** - Double polled parentage. Possible these are homo polled but not tested.

The Bulls

Lot 1 is a beautiful dark cherry red bull. When you look at the pedigree and the EPD's, you may wonder why this guy is Lot 1! Don't be biased until you visualize this exceptional individual. This bull intertwines lots of present and past in TJB Gelbvieh history. When we dispersed in 2006, the Thomas Sax-on family bought embryos by 496P, a Jagermeister daughter of one of the best cows of any time, BTI 2079L (better known by Kelsie as Gracie, her first show heifer). This guy is here because I bought daughters of a female by those embryos. We now own part of the dam of Lot 1's sire, DLW Justice 960J. He has been a tremendous sire for us. If you are looking for a great bull that does everything right, give this one a look.

Purebred Alert! A red purebred bull that comes with added growth that is backed up on paper. He ranks in the top 20% for yearling weight and 25% for Weaning weight. The dam of this bull is a Post Rock Top Brass daughter by the famed Valhalla donor, Brooke. This guy combines several of the females that made this breed what it is today.

Lot 16 stems from 7 generations of TJB donors on the bottom side of his pedigree. His dam J251 is a beautiful three year old daughter of the \$20,000 Dominic that sold through this ring in 2019. 385L is a stout made 81.3% GV son of the popular Finnegan. He offers a sleep all night CED number at 18 ranking in the top 4% and a -2.8 BW.

Starting off the Anissa Cow Family is two direct sons of the illustrious 149X and PHG Just Do It. 149X is nearing the end of her productive life, don't miss this opportunity to buy into a red purebred son. Take a look at lot 17! It will be hard to miss this freight train on sale day. He is one of the highest performing bulls in the offering. Not only is he phenotypically correct, his growth and maternal numbers are on the right side of breed average.

Homo Black grandson of the famous 149X! We admired Boxcar Willie as a yearling in the fall of 2022 when we saw him on his way home from the stud. After seeing him we decided to breed him to some of our favorite cows and we were pleased with what we got! This is a rugged made, easy fleshing bull that will get approval from cattlemen from all sectors. He charts in the top 25% or greater for 9 of the 12 Growth and maternal EPD's.

300L comes from another daughter of 149X, 731E. 731E was the 1/2 embryo interest purchase of JGP Gelbvieh in a previous online heifer sale. Lot 20 is another cherry red son of Just in Time

Lot 23

Rebel Yell / 3/4 brother to Lots 23 & 24

ANISSA 921U 579C ET // Dam of Lots 23-26

Some cows are just no miss and 579C is one of those cows. I could write a book on all of her contributions to our program. As of today she has 98 recorded progeny with a dozen more on the ground. She has amassed over \$200,000 in progeny sales. Most notably being 954G who Warner Beef Genetics purchased 1/2 interest in for \$20,000. Her full brother TJB Acuna 214K is also walking the pastures at Warner Beef was purchased for \$9000 out of last year's sale. That flush of Copperfield bulls averaged just under \$5,500. Lots 23 and 24 are sired by Probity, making them 3/4 brothers to the infamous Rebel Yell.

The dam to 3100L is a 579C x Fronrunner daughter making her a full sib to the \$15,000 TJB Gladiator J141. We believe in the power of stacking cow families at TJB. Lot 27 traces back to the matriach of the Anissa's, 337M, on both the top and bottom of his pedigree. Not only will you appreciate the pedigree found in this bull, but his phenotype does not disappoint either. He is stout and offers plenty of stretch and length of body. He is in the top 20% for WW and should go on to sire those growthy calves that mash the scales down at weaning.

73W is an Angus cow that has been a mainstay making quality balancers year after year. She will be 16 this winter and is due to calve again before sale time. Longevity runs in this cow family. We sold a flush of brothers in 2022 that were very well recieved they averaged just over \$5,500 and the high seller of the flush sold to Thad Padon for \$12,000. 311L is the right build and ranks in the top 20% for marbling.

We are not known for raising Charolais bulls although we have been breeding small numbers for several years, we believe this bull is representative of the type of cattle we believe in.

Lot 48 comes with plenty of width and dimesion to sire heavy muscled steers being in the top 25% for WW. Lot 48 also ranks in the top 15% for calving ease and birth weight. He is homo polled. These bulls are descendants of TTR Verna U1180, a donor we purchased from Three Trees Ranch. The pedigree reads Charolais royalty with Patriot, Grid Maker 106P, Prime Cut, and Sir Duke 914.

Expanded Breeding Opportunity

TJB & THREE T PARTNERSHIP

This year marks the fourth consecutive year for our partnership with Three T Farms in Rineyville, KY. Many of the bulls selling in this sale were raised in the commercial herd of Jason, Phillip, and Johnny Taylor. First of all, thank you to them and their families for being such an integral part of this program. Your confidence in our genetics has expanded our breeding opportunities.

We are currently calving about 60 ET calves from our most elite donors at Three T in the fall calving season. Those bulls are offered every year in this sale at TJB Gelbvieh. We also calve about 50 spring born calves. Those bulls are being fed in KY at the Taylors, and sell in the TJB/3T Annual Bull & Female Sale sale in Upton, KY in April.

This partnership not only gives us options to create more bulls from the best females we have available, but it also gives our customer base some flexibility in buying times for our genetics. I continue to be so appreciative of the Taylor families for their friendship and the chance to further the dream of producing the "best of the best" in Gelbvieh and Balancer genetics.
